Gregory Developmental Road
Pavement rehabilitation works
Mount Owinee – 80kms south of Greenvale

The Department of Transport and Main Roads (TMR) would like to advise that pavement rehabilitation works will soon commence at the Gregory Developmental Road at Mount Owinee, approximately 80kms south of Greenvale and 110kms north of Charters Towers.

The works will involve the removal and replacement of asphalt on this section of the Bruce Highway to improve safety and the rideability for motorists.

Works to take place
28 November 2019 to 18 April 2020
6:00am to 5:30pm, Monday to Sunday
(Weather and construction pending)

What to expect during the works:
• During construction, road users and residents can expect changes to the existing traffic conditions such as partial lane closures, reduced speed limits and travel delays of up to five minutes.
• Traffic controllers will be on site from 6:00am to 5:30pm to assist road users during the works.
• Traffic signals will operate 24 hours a day, seven days a week to ensure driver safety while pavement rehabilitation works are being carried out.

Wide load restrictions
• Due to roadworks, width restrictions shall be in place Monday to Sunday, 24 hours a day throughout the duration of the works.
• All vehicle combinations in excess of 3.0m wide MUST contact Steve Hughes (0407 159 920) or Josh Myles (0448 872 881) at 24 - 48 hours prior to travel for permission to proceed and for the site to be prepared.
• Due to poor mobile reception in this area, you must contact TMR prior to commencing your trip in order to pass through the works site. Failure to do so may result in significant travel delays.

All work is subject to construction progress and weather conditions. In the event of wet weather or unforeseen circumstances, this activity will be rescheduled for the next available night shift.

Road users are asked to drive carefully through the roadwork zone, follow direction of traffic controllers and adhere to reduced speed limits. TMR thanks you for your patience and understanding during the Bruce Highway pavement rehabilitation works.
