Council continues support for community groups

Council will continue its generous community grants funding following the adoption of the 2020/2021 Budget at Council's Statutory Budget Meeting today.

Council accounts for community services both through a rate-relief and monetary basis at a total cost annually of \$330,000.

A number of sporting, cultural and welfare groups receive assistance in the form of:

- mowing of fields
- rate-relief

Council will also continue its popular, twice-yearly Community Grants Programme for not-for-profit, incorporated community organisations within the Region. Recipients can receive a maximum of \$5,000 in monetary value and/or in-kind support. The next Round is due to open in November.
